

A CREATIVE COMMUNITY GATHERING

YOU'RE INVITED!

Saturday • 14 February 2004 • 1:00 P.M.

Border Institute Of Technology

9611 Acer Avenue • El Paso • Texas

A great way to meet creative, bright, and interesting people!

The Ecocre8ive Community

"We are creative individuals who enjoy bringing separate worlds together, and at our Gatherings help each other to visualize a spectrum of possible futures, and build tools to sculpt the best of them."

The Cre8ive Media Gathering

As always (since our first "Graphics Gathering" in 1980): free-of-charge, non-commercial, non-promotional, no \$-donations requested or accepted, open-to-all, 100% non-smoking, inspirational, informal and lots of fun!

Bringing "complementary opposites" together: Art & Science... Ecology & Technology... North and South... East and West... living, learning, loving (and laughing;-)... as we shape our 21st Century. Bring **your** creations to share with the other creators, and enjoy experiencing their creations.

Bridging the Divide

Messages of the Heart are in the air and on the waves as one of the longest running New Culture traditions - started February 14, 1981 at Stanford University and repeated throughout the world - continues in El Paso. A first for Texas and the greater Southwest!

Digital Valentines Day
